Aviation Safety Analysis — USA Civil Aviation 2016-2023

Analysis of 7,438 NTSB-investigated aviation incidents from 2016 to 2023. Data segmented by operation type, time, severity, and geography.
Note: investigations from 2020-2021 are still ongoing; recent years (2022-2023) are under-represented as cases close gradually over 2-3 years.
